

OGB - 13
INSTRUCTIONS

Read Carefully and Comply Fully

This form shall be executed and filed in triplicate with the State Oil and Gas Board covering each plant in which products are produced. A separate certificate shall be filed for each transporter authorized to transport products from a plant.

After said certificate has been approved by the State Oil and Gas Board, one copy shall be forwarded to the transporter; one copy returned to the producer; and one copy retained by the Board.

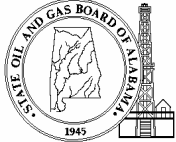

This certificate when properly executed and approved by the State Oil and Gas Board shall constitute an authorization to a pipeline or other carrier to transport products from the plant named therein and shall remain in full force and effect until:

1. Operating ownership changes; or
2. The transporter is changed; or
3. The authorization is canceled by the State Oil and Gas Board.

If any of the rules and regulations of the State Oil and Gas Board have not been complied with at the time this report is filed, explain fully under the heading: "REMARKS."

In all cases where the certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil, gas or condensate, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport products.

State Oil and Gas Board personnel will not make additions to or change any part of a notarized form.
